dp-connection adapter

For safe coupling of filter housings
and measuring systems

DATA SHEET dp-connection adapter

For safe coupling of filter housings and measuring systems

The adapter is compatible with all valve and filter controllers from HESCH and generally designed to fit hose diameters of 6 mm or 8 mm. Due to its small size of 57 mm × 57 mm only, it requires little installation space.

The assembly is done from one side and takes 5 minutes max.

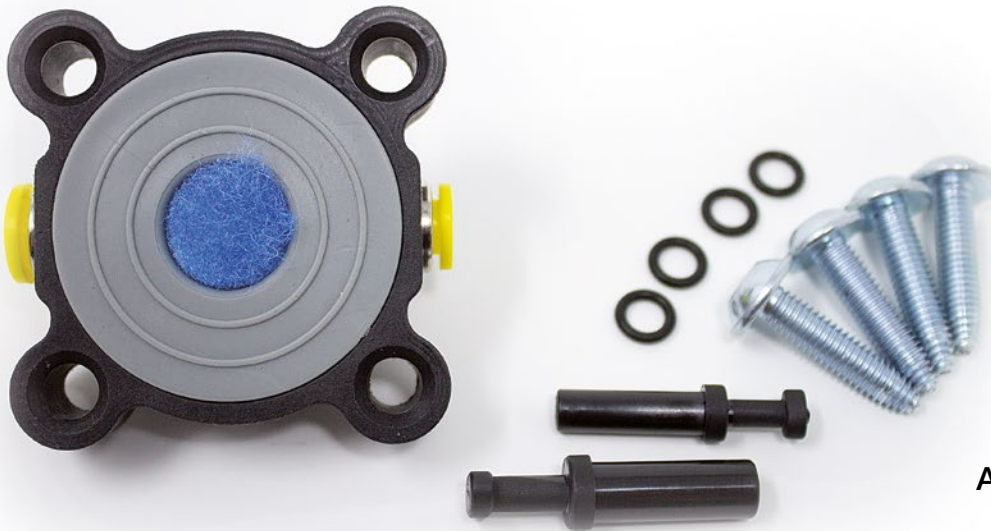

- ✓ Robust
- ✓ Durable
- ✓ Safe

► Fields of application

- ✓ Filter and ventilation technology
- ✓ Extraction systems
- ✓ Spray and paint booths
- ✓ Medical technology
- ✓ Clean room and laboratory technology
- ✓ Environmental technology
- ✓ Firing technology (-20 °C to +60 °C)
- ✓ Chimney draught

Scope of delivery:

- dp-connection adapter with seal and filter pad
- blind plugs for 6 mm and 8 mm connection
- drilling template and mounting instruction sheet
- 4 × O-rings for screw fixation
- 4 × mounting screws

Article no. #54990001

Spare parts such as filter pads and seals can be purchased from HESCH.
